LARGE COMMERCIAL - MANUFACTURING

By Contract Only.....@ Per Contract Rate per CCF*** per mo. + Demand Charge

*Rates are applicable to on time payments.

**Minimum Monthly Bill: The minimum monthly bill shall be paid every month in the year.

***CCF = 100 Cubic Feet

****Case by case basis

(a) This charge is made for the maintenance of services to customer and is a part of the billing regardless of whether any gas is used in any month or not, so long as the service is connected and it is understood by both parties that this minimum amount will be billed each month of the year except as provided for in Paragraph B.

(b) If a customer wishes to have gas turned off for the summer months, the District will make the turn off in spring and reconnect again in the fall, if gas is available, for a fee of \$50.00 reconnect for residential and \$100.00 reconnect for small commercial. These fees will cover the minimum billing for the summer months and the clerical work involved in processing the account through the District=s records in the spring and in the fall. There is a \$10.00 service charge for turning off pilot for the summer.
